**1L from Profile, on the fly, multi section like below,  
0.18mm hole, 7 thou in. hole**

1 head - up to 2500- 4500/hr, 2 head – up to 5000-8500

3 head- up to 7500-13,000, 4 head 10,000 to 16,500/hr

Most 1L will be in the top ½ of the range above, **we have allowed for some very poor 1L** we have tested over the year on the lower limit, and they are still fast

Even our stop/start 6LDV is much better than the single and double traveling heads from the competitor on 1 L at much lower cost.
